

## PROJECT WEBSITE

A website for this project is located at [www.peoriatomacomb.com](http://www.peoriatomacomb.com). The corridor protection map will be posted to the project's website after the public hearings. Comments and questions can also be submitted through the website.

## SCHEDULE

Following these hearings, public comments will be reviewed and adjustments will be made to the map as necessary. Once the map is revised and approved it will be filed in the offices of the recorder. All owners of record of the land identified within the proposed right of way will be notified individually within 60 days of the filing.

## PROJECT STATUS

The planning phase and the identification of the proposed right of way for IL 336 have been completed. The project has entered the design phase, and the development of the detailed plans for the portion from I-474 to Hanna City has begun. These plans will be completed in the next couple of years. Currently, there is no funding for construction of any part of IL 336 from Peoria to Macomb.

## CORRIDOR PROTECTION - PROPERTY OWNERS PROCESS

Property owner wants to make an improvement to their property  
*Note: Property may be bought and sold without notifying IDOT, but proposed improvements and/or developments need to be reported to IDOT*

Property owner notifies IDOT 60 days in advance by registered mail

IDOT responds within 45 days

If IDOT is to purchase the property, 120 days are allowed for the purchase or start of eminent domain

If IDOT will not purchase the property at that time, property owner may proceed with improvement

# ILLINOIS 336 Corridor Protection Peoria to Canton

## Open House Public Hearing

---

**Tuesday, August 21, 2012**

4:00 PM to 7:00 PM  
ITOO Society Hall  
4909 W. Farmington Road  
Peoria, Illinois

**Wednesday, August 22, 2012**

4:00 PM to 7:00 PM  
Donaldson Center  
Wallace Park  
250 S. Avenue D  
Canton, Illinois

401 MAIN STREET  
PEORIA, IL 61602  
OR CALL 309-671-3490

# Welcome to this Public Hearing

Staff members from the Illinois Department of Transportation (IDOT) and their consultants are here to discuss corridor protection for the final highway alignment between the west side of Canton to Peoria. The hearing is being held in an open house format to allow informal discussion between the public and the study's staff members. We invite you to view the displays and share your comments with members of the study team. As this is an official IDOT Public Hearing, a court reporter is available to take oral statements to be included in the project record. You may also write comments on the enclosed comment form and leave it in the comment box or mail the form to IDOT after the meeting. All written comments received before September 24, 2012 will be included in the official project record.

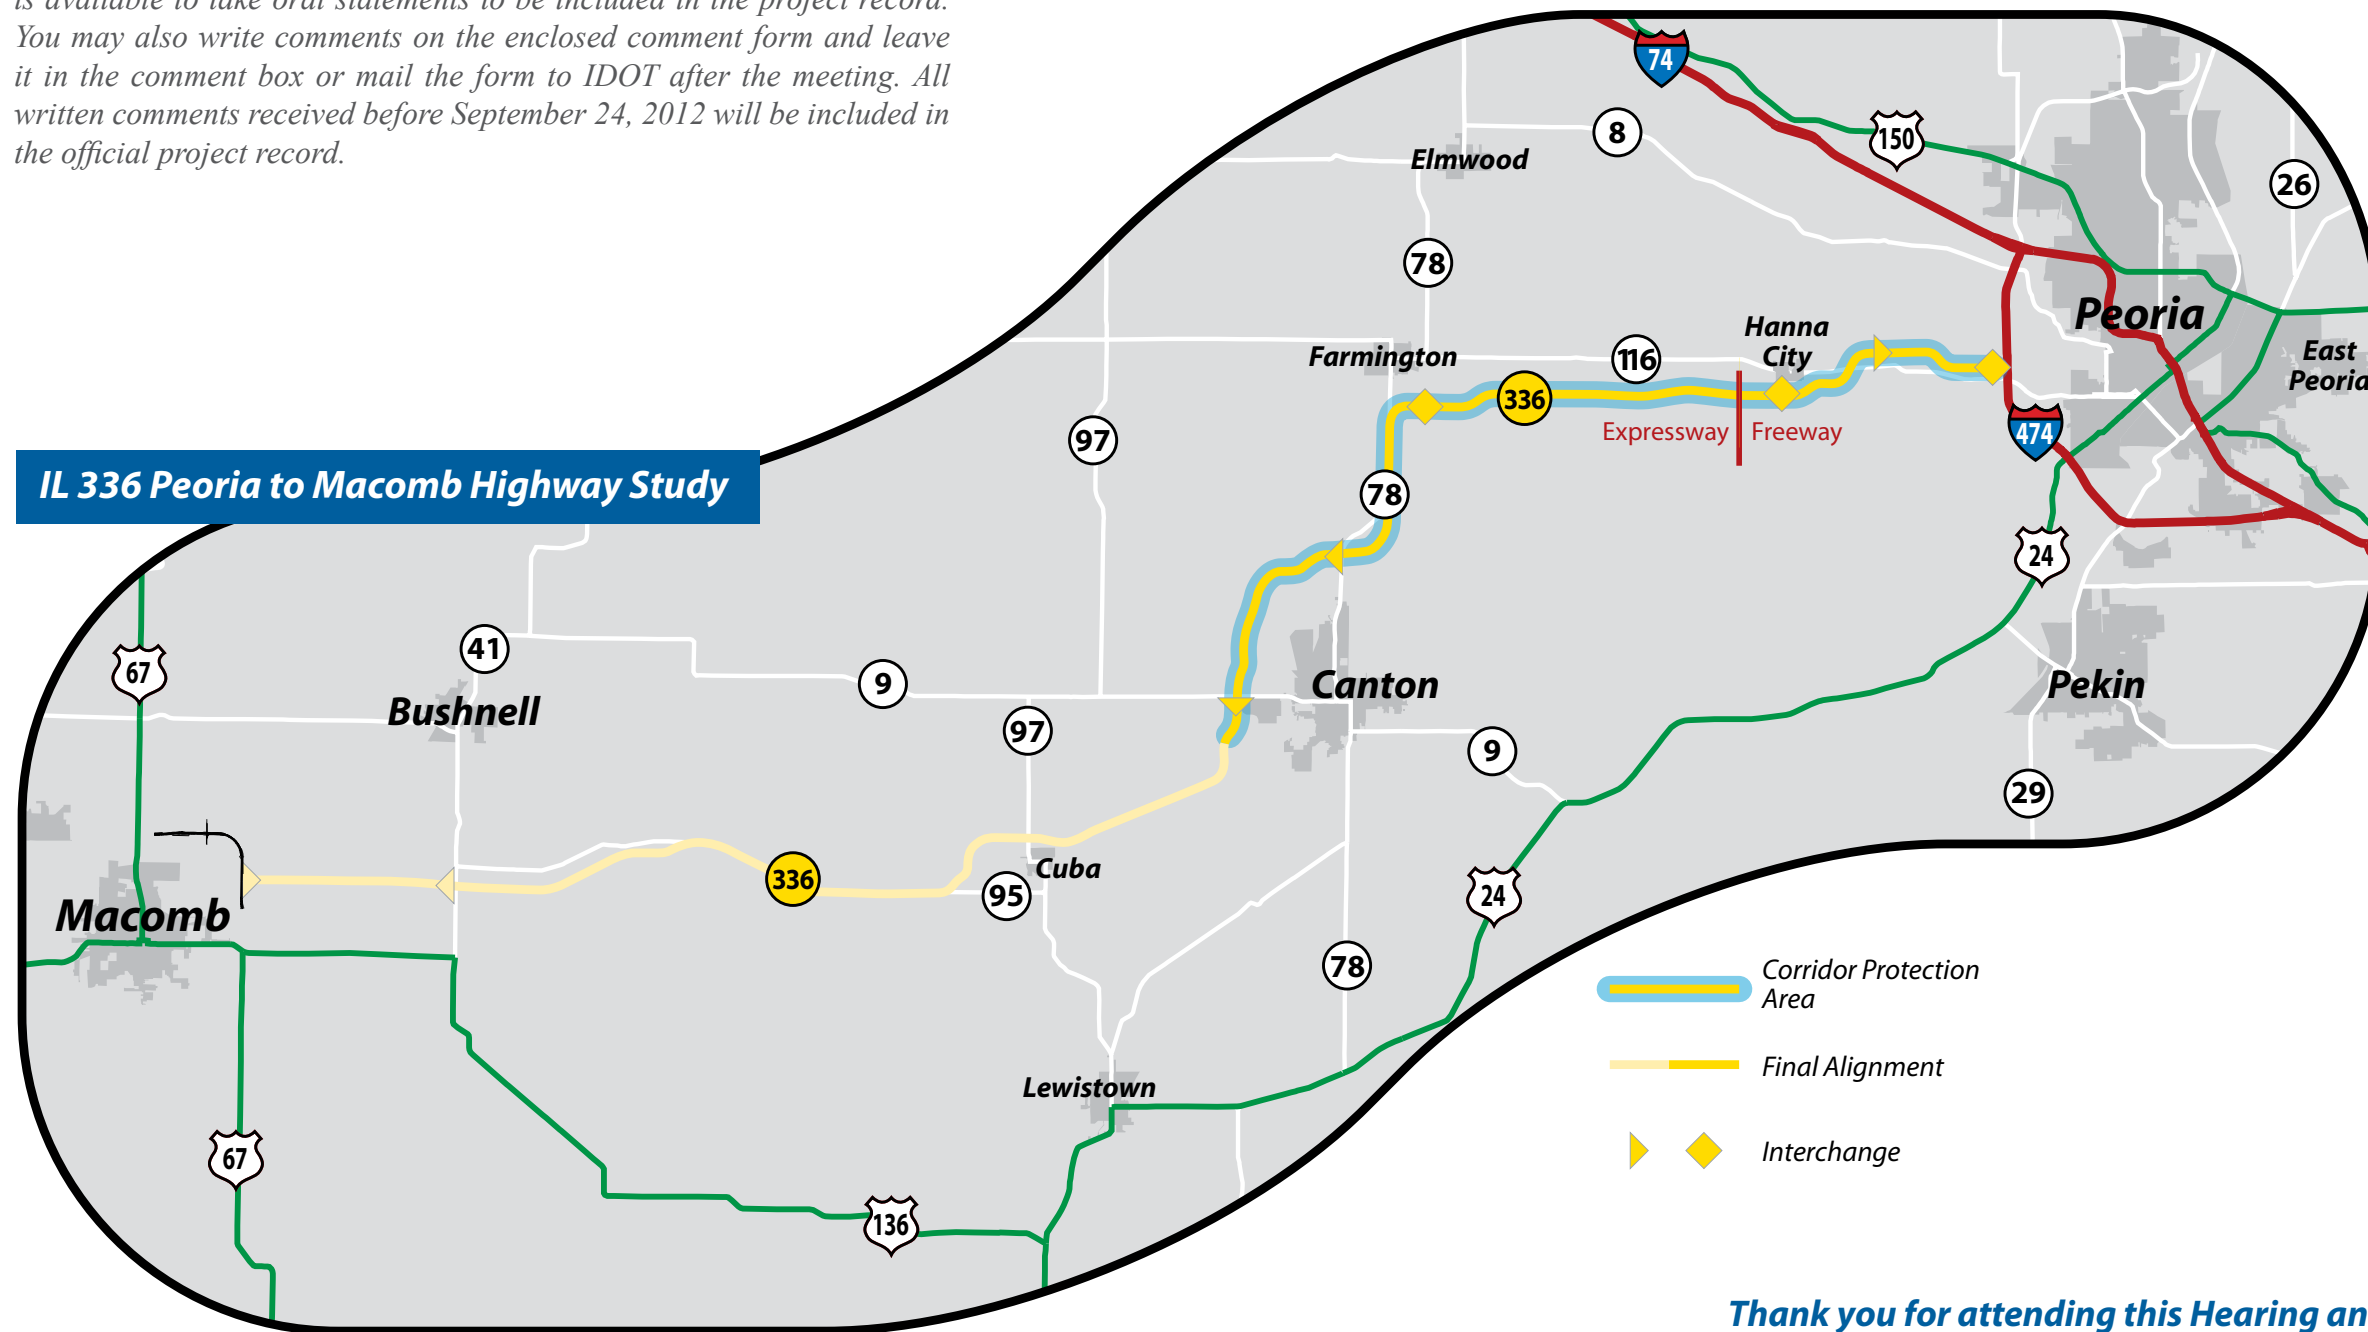

## BACKGROUND

The Illinois Department of Transportation completed the study of IL 336, the Peoria to Macomb Highway, in 2011. The Federal Highway Administration signed the Record of Decision on June 6, 2011 thus ending the study phase of the project. The department has identified the rights of way needed to build IL 336 from Peoria to Macomb. To insure this right of way is available, IDOT has initiated the corridor protection process along the right of way from Peoria to the west side of Canton.

## CORRIDOR PROTECTION

Corridor protection is a legal process (Illinois Highway Code 605 ILCS 5/4-510) designed to establish the approximate locations and widths of the rights of way for future additions to the State highway system. Corridor protection informs the public and prevents costly and conflicting development of the land involved. Once a corridor is established, IDOT performs a survey and prepares a map showing the corridor and approximate right of way needed for the future highway. This map is available for viewing at the public hearings. Then the map, with any changes resulting from the public hearings, will be approved and filed in the office of the recorder in all counties in which the corridor lies. All owners of record of the land identified within the proposed right of way will be notified individually within 60 days of the filing.

After these notices are given, the property owners are not to begin improvements or developments without giving IDOT a 60-day advance notice. After receiving notice from a property owner, the department then has 45 days to decide whether or not to buy the right of way and an additional 120 days to complete purchase or start condemnation. If the property owner builds an improvement without giving such notice, the department does not have to pay for the improvement when the right of way is acquired.

Thank you for attending this Hearing and for your interest in this project.
